Call for Participation

The purpose of this Workshop is to provide an informal setting in which the participants, professionals of the research and application areas related to Decision Making and Decision Support, will have the opportunity to discuss technical, methodological and social aspects for developing DSSs. The members of the EWG-DSS are expected to participate and to encourage the participation of other related professionals, so that further collaboration can be promoted on a larger scale during the workshop. The workshop will also embed a business meeting of the Euro Working Group on DSS at its last session.
